

**M1 Maths**

# **Contact**

M1 Maths is produced, maintained and progressively improved by David Ilsley in Brisbane, Australia.

The contact email is [d.ilsley@gmail.com](mailto:d.ilsley@gmail.com)

Please feel free to email if you are a teacher thinking of trialling or using the materials in your school and would like some help. Support will be provided at no cost. Support will need to be mostly online, though it could include school visits for schools in the Brisbane - Gold Coast area (once the corona situation is better).

Also feel free to email if you have any questions, comments or suggestions, or if you find errors in the materials – there are bound to be a few. Emails about things like incorrect answers, unclear language, poor explanations and even typos are very welcome, will be acted upon and will be acknowledged unless requested otherwise.
