

## A4 Paper

### Open Group Investigation

Find out everything you can about A4 paper.

Some of the things that students may discover:

- 70 gram paper means a square meter weighs 70 grams
- A4 paper is part of a series. A5 is half of an A4, A3 is twice an A4, etc.
- The ratio of length: width for each size in the A series is  $(\sqrt{2}) : 1$ .
- The area of A0 paper is exactly 1 meter square.

Idea from Ulla Oberg, Lund University, Sweden.
