### Mathematical poem

$$((12 + 144 + 20 + (3 * 4^{(1/2)})) / 7) + (5 * 11) = 9^2 + 0$$

Or for those who have trouble with the poem:

A Dozen, a Gross and a Score,  
plus three times the square root of four,  
divided by seven,  
plus five times eleven,  
equals nine squared and not a bit more.
