

Highest Common Factor Game

12	13	14	15
16	17	18	19
20	21	22	23
24	25	26	27

1. Students draw a 4 x 4 Grid in their notebooks.
2. Start with any number in the upper left corner. Then write numbers in order.
2. I circle a number, you circle a number, you get the HCF.
3. You circle a number, I circle a number, I get HCF.
4. Repeat until all numbers are circled; highest total wins.
