

Which Type of Graph?

Which type of graph (column, line or pie) is best to display:

- the growth of plants over a four week period
- the percentage of a family budget spent different items
- the monthly rainfall in Rockhampton in 1998
- the heights of the buildings along Quay Street
- the expenditure of the P&C on various sections of the school
- the amount spent on Education by Asian countries in 1998
- the amount of allowance you received each year, from Year 1 to Year 8
- the allowance received by each member of your class
- how you spent your allowance over the last month
- the number of pencils in the pencil case of each student in your class
- how high each member of your class can reach up a wall of the classroom
- the number of questions you got right on a daily quiz on multiplication tables, during the month of May.
- the time it takes for each student in your class to get from home to school
- your results on your last 10 Maths tests
- the favourite fast food of members of your class
